CENSUS OF THE COMMONWEALTH, 30TH JUNE, 1954NO. 15: TASMANIA - POPULATION OF MUNICIPALITIES

This Bulletin contains particulars of the population recorded in each Municipality in Tasmania at the Census of 30th June, 1954. Figures are also shown for each town with a population of 750 persons or more within these Municipalities.

These figures are issued at a comparatively early stage in an interim form as they are derived from the initial Field Count and may in some cases be subject to considerable amendment on completion of tabulation.

The Municipalities and the towns have been arranged in groups by Statistical Zones (Divisions), then in alphabetical order. Statistical Zones are identical with "Statistical Divisions" as used in publications of State Statisticians. They are not identical with Census Divisions.

The boundaries of towns not separately incorporated for purposes of local government were specially determined for Census purposes to embrace the urban areas which could be regarded as the town. They have been indicated herein by adding the letters "N.M." after the name of the town.

The population of urban parts of some towns has spread over the delineated boundaries into the surrounding municipality. This is included with the population of such municipality. Action is being taken to ascertain from Census records the urban population of towns which lies outside the delineated boundaries of such towns.

TASMANIA

POPULATION OF MUNICIPALITIES IN STATISTICAL ZONES (DIVISIONS)
AT 30TH JUNE, 1954.

(Exclusive of Full-Blood Aborigines)

NOTE: These figures are derived from the Census Field Count and may be subject to considerable amendment on completion of tabulation.
"N.M." indicates Non-municipal town with a population of 750 persons or more.
Statistical Zones (Divisions) are identical with "Statistical Divisions" as used in publications of State Statisticians.
